\* Status for June 2023

\*\* Measured from the inside with the door closed: the distance between the cylinder axis and the door frame.

## Add extra smart benefits

### tedee **smart bridge**

**Your front door remote**  
Connect your smart lock to the internet to control your door from wherever you are.

Unlock your door remotely, check the real-time smart lock's activity, and control it using one easy mobile widget.

### tedee **keypad**

**Unlock with your PIN**  
Put a small keypad outside your home to unlock the door without keys or smart devices.

Just use the PINs for access sharing and security whilst maintaining total privacy.

## Add extra smart benefits

### tedee **GO bar**

The Tedee Bar is a key adapter that allows you to install Tedee GO on a compatible cylinder, enhancing your security and convenience on your door.

### tedee **display block**

**Demonstrate excellence**  
Wow your customers with this fully interactive and professional demonstration block, that comes with a pre-installed tedee smart lock and functioning AP Cylinder

## Discover Tedee-ready hardware

### **APECS Cylinders**

#### **tedee-ready hardware**

Not only does our premium AP Cylinder integrate seamlessly with the TEDEE Smartlock, but you'll also benefit from a remarkable £2,500 break-in guarantee and a comprehensive 10-year warranty.

# How does a smart lock work?

## Your virtual keys

What if handing over your keys worked like sending an e-mail? When unlocking your door with a smartphone, simply create and send your extra "key" in the app.

**Three user types**

**Precise access settings**

## Your next-level protection

What if securing your door worked like internet banking? Connecting your Tedee to the online cloud promises high-tech protection to secure your door with reliable digital technologies.

**Cloud-based security**

## Your personal doorman

Forget looking for keys in a hurry or with your hands full. Your home will be ready to welcome you hassle-free with an open door.

**Automatic locking**

**Automatic unlocking**

## Your convenient control

Stay updated on who's accessing your home with Tedee. Get detailed and real-time access history anytime.

**Push notifications**

**Live activity logs**

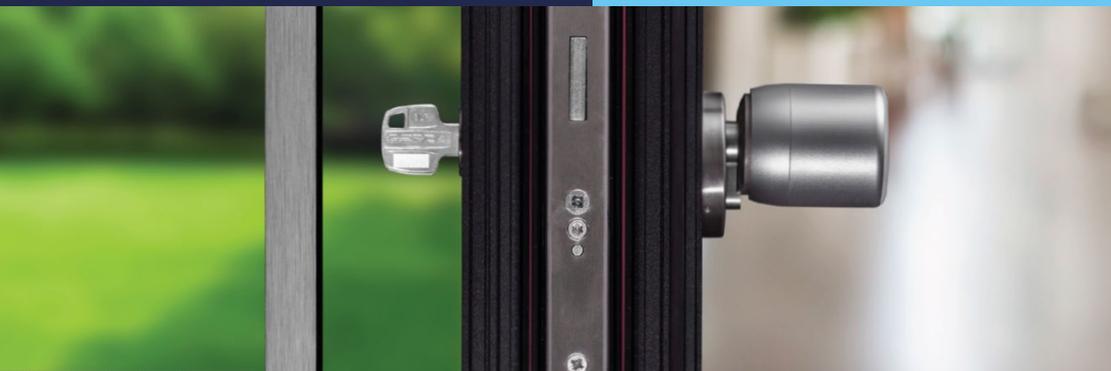

## Invisible from the outside

Unlock it with a key anytime.

## Securely installed inside

Unlock it manually or with a button.

## Control your lock with Siri, Google Assistant, or Alexa

Simply ask your favourite voice assistant on enabled smartphones, smartwatches, TV hubs, smart speakers, and others.

## Manage access via central interface

Connect tedee with your smart home hub to control the smart lock where you manage all devices.

## Synchronize with other smart equipment

Turn lights off when you leave. Play the music upon arrival. A smart lock on a threshold of your place acts as the perfect trigger for everyday automation.

## Integrate with your smartphone

Hey Google and HomeKit compatibilities let you add tedee to Google Home on Android or iOS Home apps, on devices you probably already have.

## For professionals

Cloud-based API and developer resources allow full customization of lock's work in your system – including hotels, residential buildings, retirement homes, etc.

## Smart home integrations require tedee smart bridge.

It is not required for Apple HomeKit integration only.

## Enter the smart world.
